

# **CURRICULUM VITAE**

## **PERSONAL DATA:-**

**Name:- Ahmed Luai Farhan**

**Date of Birth:- November- 28- 1993**

**Place of Birth:- Baghdad- Iraq**

**Marital status:- Married**

**Gender:- Male**

**Address:- Iraq-Baghdad**

**Nationality:- Iraqi**

**Language:- Arabic, English**

**Mobile:- 07810025501 & 07710950551**

**Email:- ahmed\_luay1993@yahoo.com**

## **ACADIMIC DATA & DEGREES:-**

**1-Bachelor in Petroleum Engineering from AL-Farabi University College**

**2-Graduation year:- 2017**

## **3 -EDUCATION & TRAINING**

**A-Holding bachelor 's degree with major in petroleum Engineering.2013-2017**

**B-Graduation project in create Drilling program By Using Computer Software.**

**C-Summer training for 2016 with Center Of Research And Development.**

**D- collective in (SPE International) Society of Petroleum Engineers - ( Baghdad section )**

**E- I have participated And I got Certificate in the training course in “ Reservoirs Management and oil fields "" Development ” from (SPE) in 11 – 15 Feb , 2018 .**

**F- I have participated And I got Certificate in the training course in "Horizontal drilling"**

**Development ” from (SPE) in 31 MAR – 4 APR , 2018 .**

**The Degree has focused on to understand the fundamental principles of science and engineering behind the technology of petroleum engineering.**

## ***This course has enabled me to:***

**A-Gain introductory training on reservoir simulation software systems and complete lab experiments on topics such as:petrel:Fortran software Eclipse and Digger.**

**B-Obtain Knowledge and understanding of principles that underpin engineering science, mathematics and applied sciences essential for a petroleum engineer:**

**C**-Undertake field visits and gain an understanding of technology application in the field; how operations are conducted; the challenges faced during and after production and the expectations of oil and gas engineers;

**D**-Improve analytical skills, leading to the ability to apply engineering principles to a wide range of applications;

**E**-Appreciate and understand the economic, social and environmental context in which petroleum engineers' work;

**F**-Develop the ability to think critically and analyse information in an objective manner in order to form a judgment;

**G**- Enhance the ability to work independently or in groups to handle projects and meet deadlines.

#### **4-INTEREST & ACTIVITIES:-**

**A**-browsing the internet journal of petroleum technology to keep up to date with issues in the oil and gas industry, technology advancement and news about society petroleum engineers

**B**-Passion for travelling in order to learn about the history, culture and life style of different countries.

### **6- PLACES WHERE I WORKED**

**1**- Worked at Blue Coast for Travel & Tourism.

**2**- Worked at Eye of visions Company Legal services and real Estate Services .

**3**- Worked at Haya office for Computer Services

#### **5- ADDITIONAL QUALIFICATIONS & INFORMATION:-**

**A**-Familiar with the Google Web Browser, Microsoft Office™ Tools (WORD™, EXCEL™, POWER POINT™)

**B**-English, good in comprehension, reading, writing, speaking.

**C**-Arabic

**D**- Experience in the field of computers and technology

**E**- I Bear the pressure of work and can work with a team
