

## INFO

An electrical engineer specializing in electronics engineering, I have the ability to design and assemble electrical and electronic. Qualified to work and deal with computers, ability to deal with programming languages, work on various controllers and control panels, and also qualified to teach students. Experience in dealing with clients and managing small enterprises. I have a mania in networking and programming. I hope one day I will be able to reconcile programming and networking. I am seeking to develop my English language, in addition to learning other languages. I am seeking to develop my academic studies regarding electronics and clean energy. I wish success from God to achieve my dreams and what I am seeking in order to have a fingerprint in this country and in this life

## EDUCATION

### University Of Technology,iraq - Bachelor

Graduation date : 2017-06-03

The Department of Electrical Engineering is one of the most important departments in the University of Technology as one of the earliest scientific departments. It is one of the important sources in the graduation of engineers in the fields of electronic engineering, communications engineering and electrical engineering to provide state and private institutions with efficient engineering cadres. In order to contribute to the solution of technical problems and the completion of projects and applied research and to provide scientific advice to serve the interests of scientific development and the rising progress in the performance of state institutions.

## EXPERIENCE

### Customer care Zain,Iraq

2018-06-24 ~ Current

Through this opportunity and as a new adventure. I gained the ability to deal with the different types of people, the ability to tolerate people, solve their problems and the ease of communication with them

### Data Entry Zain company

2018-02-25 ~

Work as a data entry and auditor in Zain's archive under a two-month contract

### Store manager Own Business, Baghdad

2012-09-08 ~ Current

The nature of the business is the trade through the purchase of food and disposal to customers. Through this work he has the experience to deal with customers and sales and purchase.

## COURSES

### Foundation Diploma in Mathematics - Business and Commerce

2017-11-16 ~ 2018-04-16

This diploma course provides students with the knowledge and mathematical skills necessary to study business or trade at the third level.

The topics covered in this course are Introduction to Mathematics, Algebra, Equations and Functions, Calculus, Probability and Statistics, Calculus, Matrices, Statistics and Introduction to Business Mathematics.

## INTERESTS

- Travel
- reading
- Scientific research and its applications
- Basketball

A training course for working on CNC machines and programming using the NX10 software 2017-08-14 📅

### CCNA ROUTING AND SWITCHING 200\_125

2017-10-01 ~ 2017-12-01 📅

This course is considered as the cornerstone in the world of networks and communications, in addition to addressing the work on the equipment of the company and how to program and work on it

## ★ ACHIEVEMENTS

### graduation project

2017-05-13 📅

The project is designed and implemented code makes storage boxes safer. The project was simple and at the same time enjoyable, and through the project I have acquired some knowledge and culture in the world of electronics and the extent of expansion and spread.

This project has a beautiful addition to both the scientific and personal aspects, with regard to the practical is to familiarize with the world of electronics and programming, either the personal aspect is to increase the ability to be patient and work under the tight time and perseverance to finish the work began.

Finally, the project was completed in principle and received a high rating by the supervisor at the time, where the evaluation included the theoretical and practical part.

## 📍 SKILLS

++intermediate  
knowledge of C  
and C (60%)

intermediate  
knowledge of  
visual Basic  
(60%)

Microsoft Office  
Suite (Word,  
Excel,  
PowerPoint)  
(90%)

intermediate  
knowledge in  
AutoCAD 2004-7  
(60%)

Skill in solving  
routine  
problems and  
more complex  
equipment, but  
within clearly  
defined policies  
and procedures  
(90%)

Ability to work  
effectively in a  
complex  
multicultural  
and  
multicultural  
environment  
(80%)

Ability to adapt  
to tight  
deadlines,  
heavy workload,  
and frequent  
changes in  
priorities (80%)

Excellent  
customer  
service skills  
(90%)

Advanced  
knowledge of  
matlab (80%)
