

## **Mustafa Mohammed Salih**

Date of birth: 09/7/1991

Location: Iraq/ Baghdad/ Baghdad Al Jadida

Phone number: 07713456840

Email: Msc.mustafa.ms@gmail.com

### **Education**

B.Sc. In Materials Engineering / University Of Technology 2009-2013.

M.Sc. In Materials Engineering / University Of Technology 2014-2016.

### **B.Sc. Graduation Project :**

Hybrid Composite materials and their effect on addition to other polymer

-----

### **M.Sc. Project :**

-----

Fabrication and characterization of Nanopowder for Construction application

### **Patent :**

-----

Fabrication of Nanopowder by Spray pyrolysis and implement it in mortar for Construction Application.

### **Courses:**

-----

- ❖ Knauf : for Suspended Ceiling and Drywalls
- ❖ Alison : Project Management, Introduction to Masonary Material, and other.
- ❖ General Computer Course in Al-Technology University
- ❖ Language Course (English) in Al-Technology University

### **Professional Skills:**

#### **• Computer skills**

- Microsoft bundle(Office-Excel,..etc) - **Full Professional Proficiency**
- Photoshop - **Full Professional Proficiency**
- AutoCad - **Full Professional Proficiency.**
- 3D MAX - **Intermediate Proficiency**
- Revit - **Intermediate Proficiency**
- Sketch Up - **Intermediate Proficiency**
- Visual basic – **Beginner**

#### **• Technical skills**

- Research and Development of new generation of materials from raw materials in order to develop for industries and construction fields .
- Experience in Polymers , Ceramics , Metals and composite materials laboratory examination , and knowledge of them in general down to the Nano-range.
- Great experience in AutoCAD, to be used in general, even in modeling.
- **Other skills**
- Fluent in arabic Language, And full professional competency in English Language
- Good relations in the work space and very effective in teamwork.
- Undergo different courses online to improve self in different fields
- Easily can learn new skills, Technical or social.

## Work Experience

### •Al Bilad Al Mutahida Company (2017-2018)

- Work in Marble field regarding selling the product to customers and inspect it for the quality of the marble.
- Selling and marketing façade porcelain tiles, including creating workshop drawing for the porcelain on AutoCAD for the clients to show them how it will be installed as well as the quantity required for them
- Creating Price offers for different clients for the items above as well as for Sanitary ware
- Communicate with different companies around the world ( Spain, turkey, Russia, Etc.) regarding their products, gain technical and commercial specification which lead to insert those new products to our company and introduce it for the clients.
- Going to different sites, in order to draw the location in AutoCAD, by using traditional measurement methods, to submit the simplified plan to put the sanitary ware and calculate the requested quantities for tiles to be sold to the customers.
- Contract forming and other administrative work.
