EDUCATION

University of Baghdad

2014 — 2019

Department of chemistry

- Graduation project (Spectrophotometric determination of adrenaline in pharmaceutical drugs) .

LABORATORY SKILLS

- **Titration** (applied in vitamin C determination in an orange juice can).
- **Extraction** (applied in Caffeine extraction and determination in a tea bag).
- **Raw materials** purity check through melting point and boiling point tests.
- Has a strong background working with devices like UV-vis spectrophotometer, pH-meter, melting point test apparatus and is able to perform their calibration.
- Strong knowledge of analytical chemistry principles and methods with the ability to interpret results.
- Capable of understanding and applying the USP and BP in addition to all GLPs.
- Able to preform all tests regarding water treatment, analyzing the efficiency and documenting and interpreting results, suggesting solutions.

SOCIAL AND COMMUNICATION SKILLS:

- English proficiency.
- Mailing and internet.
- Microsoft package.
- Team management.
