HIBA ISMAEL

Electrical power engineer

EDUCATION

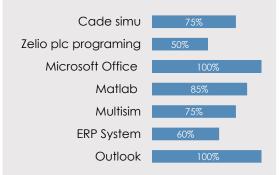

Technical Engineering

2017 - 2020 B.Sc. electrical engineering Graduated August 2020

WORK EXPERIENCE

- Experience in working with Legrand-Brand equipment such as switches, MCB, and MCCB.
- Knowledge of safety laws and regulations related to the process.
- Work as lighting engineer and dealing with lighting brands such as (OPPLE, FSL, SYLVANIA, EGLO, LUTEC, GAAPRO) and knowing the international standards for lighting engineer.
- Worked on the installation of ATS panel.
- Analyze project requirements and perform technical calculations supporting design including electrical requirements, safety standards, and motor controls; develop and implement software databases to track production processes.
- Resolve electrical issues.
- Work as sales engineer and identify customer's problems, delivering presentations to customer's sites and solution in the market, presales approach to get the edge of advantages in the offering process, follow-up leads and payment and build customer database for the designated region.
- Work in purchase order of electrical equipment and inventory it by reading the code and checkup the equipment, receiving all incoming items and match with purchased requisitions.
- Organizing and rehabilitating the electrical equipment store, goods outgoing is done through exchange bills that correspond the names of the items and have complete procedures.
- involved in providing inputs to the company management for deciding the budget for different processes across various departments.
- ensure that the operating costs for various tasks being handled in the organization remain within the set budget.
- collaborating with site managers, engineers, site worker and other professionals.
- sequences of activities for each project stage

SOFTWARE

CERTIFICATION

- Certification in HSE course of Study presented by OSHA Foundation for comprehensive.
- Certification in IGCC From Basra Gas Company (BGC).
- Certification from EF set (EF Standard English Test) achieving an overall English level of -B2 UPPER INTERMEDIATE ACCORDING to the CEFR.
- Certification of completion of Arduino workshop & projects conducted at "scientific care forum in Basra from IEEE.
- Certification from Specto company measuring ICT skills.

IGCC Planning & Cost Engineer

Deciding on the most appropriate engineering techniques and sequences of activities for each project stage.

Ensuring plans meet the client's specifications.

Making estimations for timescales and costs.

Supervising the project at all stages and providing solutions to problems.

SKILLS

- Able to problem solve and troubleshoot as the need arises.
- Flexible and adaptable, strong commitment to safety.
- Excellent in working in harsh geographical.
- Working knowledge of all relevant contract and HSE regulations including procedures, guidelines and work instructions.
- Strong technical foundation with the ability to work independently.
- Excellent presentation skills.
- An active listener with the ability to focus on customer requirements.
- Fluent in both spoken and written English language.
- Confident and assertive.
- Highly motivated and self-reliant.
- Excellent knowledge of the installation and maintenance of electrical systems and equipment.
- Capable to reading diagrams and instructions for electrical panel and equipment.
- Understanding of electrical protection and control.
- Knowledge of electrical safety standards.

OSHAFOUNDATION

Occupational Safety & Health Training

This is to Certify That HIBA ISMAEL IBRAHIM

Has Successfully Completed all Academic Requirement In This 30 - Hours Occupational Safety & Health Course of Study Presented by Osha Foundation for Comprehensive Development.NGO

General Industry Safety and Health

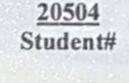

Topics Covered in this Training Included (30 - hours): Introduction to OSHA and Safety Regulation (2h) Safety and Health Management Program (2h) Waking and Working Surfaces(3h) Exit Routes, Emergency Action Plans and Fire Protection Plans (3h) Electrical Safety (2h) Personal Protective Equipment – PPE (2h) Hazard Communication – Haz Com (2h) Material Handling (3h) Powered Industrial Trucks (1h) Ergonomics (1h) Hazardous Materials – Flammable / Combustible (1h) Permit Required Confined Space (1h) Hazardous Energy Control – Lockout / Tag out (LOTO) (1h) Machine Grinding (1h) Welding and Cutting (2h) Introduction to Industrial Hygiene (1h) Bloodbome Pathogens(1h) and Fall Protections(1h).
